# the MX

the future of technology

| record | review | copy | link |

Introducing The MX, the technology of the future. The MX in the form of a desk would instantly bring files and material on any subject to the operator's fingertips. Slanting translucent viewing screens magnify supermicrofilm filed by code numbers. Triple screen technology allows for maximized workspace and multi-interface workspaces. MX uses speak to text dialect to start prorgrams and record user notes. Includes record, review, copy, link, and share features. MX can also store up to 1 million volumes of content.
